INTERESTING FACTS

Nature's Secret Code:

The temperature of the sand decides a turtle's gender

The Ocean Giant:

The mighty Leatherback Turtle is the largest of all sea turtles — growing up to 8 feet long and weighing nearly 800 kilograms!

Homecoming Instinct:

No matter how far they travel, turtles always return to the same beach where they were born.

BREEDING BEACHES

Kalipur, Karmatang, Dhaninallah, Butler Bay, Radhanagar, and Ramnagar

TURTLE FESTIVAL

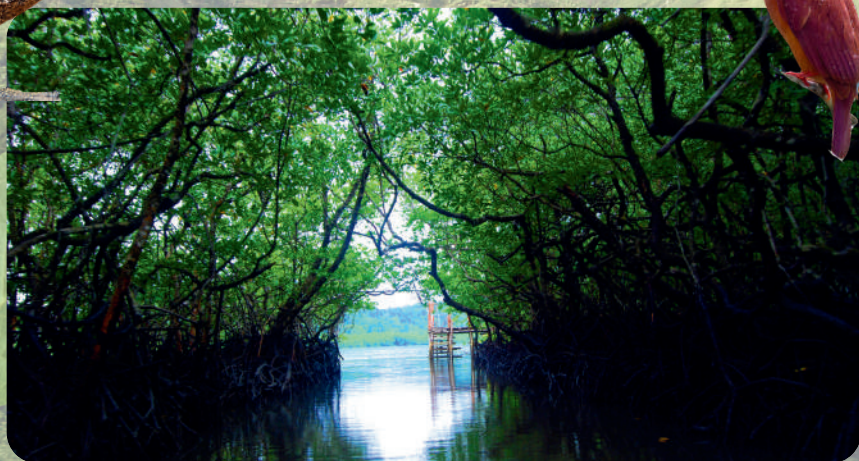

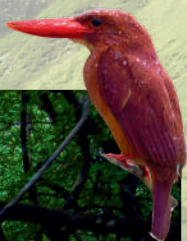

Tourists join in the release of Hatchlings in the ocean at Swaraj Dweep and Diglipur.

MANGROVE WALK / BOATING

The Andaman & Nicobar Islands have over 80% of India's mangrove species, making them a biodiversity hotspot!

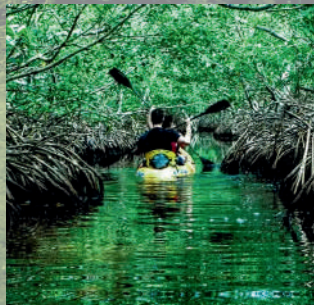

The mangroves of the Andaman and Nicobar Islands are unique because they thrive in an oceanic island environment where mangroves, coral reefs, and seagrass beds coexist in close harmony.
